

INTRO

Greetings

First of all thanks for the opportunity provided on me.

Myself Vishnu Muthukumar, I'm from Thiruverkadu,

Studies:

I completed my **Diploma Mechanical Engineering in Murugappa Polytechnic College** in 2020 with the percentage of 81. In the CLG we did a project named as **fabrication of water seer**. And I'm lead of the team. I'll manage with five members in my team. It's the process of extracting the purified water from atmosphere and it's having capability to provide 11gallons of water per day.

After Degree:

After completing diploma Currently I'm pursuing Full Stack Development course in Qspiders vadapalani, in the course I completed SQL, Java and Web-Technology is Ongoing. In the meantime I worked in **After marketing management team in Wabco, pvt, Ltd., for one year, after that I joined in Caterpillar pvt, Ltd., as Quality Engineer for One year in Apprentship Training.**

Reason of Switching:

Meaning of working is learning a New things and I gained knowledge in my core field with that knowledge I deserves better and I wanted to get more knowledge and also wanted to get myself Updated, for that I searched the field which is having high level knowledge and having things updated and I found IT field So that's I switched my path to IT field

Strengths:

- I'm easily and effectively compiled with team members because in my CLG project we are totally three classes and they pick random students and grouped somehow I'll manage to compile with them easily.
- I'll able to manage multiple works simultaneously cause in same project the other team lead met with an accident so that they pick me to assist them for two days for that two days I have split the works of mine to my team members and I'll manage that team.
- I'm also good in manage the team cause I'm lead of my team project and I'll be the representative of my class in schooling and college

Weakness:

I'm feel awkward to ask help of others, for that somehow I'll think on my own to solve the problems.

Short Term Goals: As of now my Short term goal is want to become an Software Developer.

Long Term Goals: For Long Term I have two things one is buy an own property and another is getting an well positioned job in my current working company.

That's all about me & Thank You Sir.
